

## ONE PAGER PLUS

### Quail Licenses

#### How to apply for a Quail License

1. Read through this document to identify the requirements and restrictions on accessory structures relevant to the specific project.
2. Contact the Planning and Zoning Division at 269-966-3320 to see if there are any available licenses for keeping hens. The City of Battle Creek grants a maximum of 25 quail licenses at one time.
3. On the [Applications and Petitions](#) page of the City of Battle Creek's website, download and complete the Quail License Application form.
4. Click the "[Online Application for a Quail License](#)" link to navigate to the online quail license application.
5. Visit the Applications and Permits webpage and click the link in the first paragraph for [BS&A online](#).
6. Search for the address of the project by number and street name.
7. Click the correct line for the address of the project.
8. Follow the prompts, then submit when done. If more assistance is needed, please refer to the end of this document and follow the steps in the section "Ready to Apply?".
9. A link will be sent to the email entered during the application process when the web request is processed by City staff.

#### What is needed to apply for a Quail License?

- Fence Permit (for enclosure).
- Accessory Structure Permit (for coop).
- A sketch of the property showing the proposed location of the coop.
- Specifications for the coop.

**Note:** You may contact the Planning and Zoning Division to obtain an aerial view of the subject lot to assist in showing the location of the proposed accessory structure.

#### General Requirements

Urban livestock is permitted on single and two-family residential parcels when accessory to a permitted residential use. The owner of the hens must reside on the same parcel that the hens are being kept. The hens must be kept in an enclosure and coop. Given these requirements, hens are generally kept in a side or rear yard.

The enclosure must provide at least 10 sq. ft. of space for each hen kept there. It must be located at least 20' from all adjacent property lines and 40' from residential structures located on adjacent properties. Hens may roam outside of the coop and fenced enclosure if within a fully fenced rear yard of the premises housing the hens and supervised by an adult.

There must be covered, well-ventilated, predator-proof coop within the enclosure that provides at least 2 sq. ft. per hen, nesting boxes for each three hens, 12 inches of roost per hen. The coop shall not exceed 8' in height. Cocks are expressly prohibited, regardless of the age or maturity of the bird.

The property owner/contractor is responsible for making sure that the subject improvement is located **within the property line and not the right-of-way or on an abutting property**. An approval of a permit application by a City employee and the installation of the subject improvement does not negate this obligation.

The only way to be completely certain of the location of property lines is to have a property survey done by a licensed surveyor. If the accessory structure is being built near to a property line, it is recommended that the applicant hire a surveyor to verify the location of property lines and setbacks from those property lines.

## Required Permits

Constructing the enclosure and coop for keeping hens pursuant to the Urban Livestock Ordinance (608.30) will require a Fence Permit and Accessory Structure Permit. Keeping hens will also require a Quail License.

If the property where the hens will be located is in a Historic District, a [Certificate of Appropriateness](#) will also be required. This application goes through the [Historic District Commission](#) and is needed to ensure that any work being done will be compatible with the existing neighborhood, that any existing historical feature is preserved to the best of the applicant's ability, and that any work being done during the project will not damage existing historic features on the property. A letter of approval from the Historic District Commission is required with the submission of an Accessory Structure Permit for projects located in a Historic District.

To check if the property is in one of the City's local historic districts, please enter the address of the property into the map at the following link: [Historic Districts Map](#). If there are further questions about the property, please contact the Planning and Zoning Division at 269-966-3320.

Search the City's public records to identify if your property is in a Historic District using this link: [BSA Home](#). If it is unclear, please contact Planning and Zoning staff to confirm whether or not the property is in a Historic District.

## Questions?

For the requirements for fence construction, please read our Fences One Pager Plus and [Section 1260.02](#) of the Zoning Ordinance. For the requirements for accessory structure construction, please read our Accessory Structure One Pager Plus and [Section 1260.01](#) of the Zoning Ordinance. For other questions related to hen licenses, please read [Section 608.30](#) "Urban Livestock" of the Zoning Ordinance. For other questions, please contact the Planning and Zoning Division directly at 269-966-3320.

## Ready to Apply?

Quail licenses are applied for online through BS&A. Follow this link to begin the permitting process: [Quail License](#). See below for a step-by-step walkthrough of how to complete the application.

1. Contact Planning and Zoning staff at 269-966-3320 to confirm that there are available quail licenses, as the City has a maximum of 25 licenses available.
2. On the [Applications & Petitions](#) page of the City of Battle Creek's website, download and complete the Quail License Application Form.
