**INDEPENDENT AUDITORS' REPORT**

December 19, 2019

To the Retirement Board  
City of Battle Creek, Michigan  
Police and Fire Retirement System  
Battle Creek, Michigan

**Report on the Financial Statements**

We have audited the accompanying statement of fiduciary net position of the *City of Battle Creek, Michigan Police and Fire Retirement System* (the "System") as of June 30, 2019, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements, which collectively comprise the System's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

***Independent Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the City of Battle Creek, Michigan Police and Fire Retirement System, as of June 30, 2019, and the related changes in fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the schedules of pension information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

A handwritten signature in black ink that reads "Rehmann Johnson LLC". The signature is written in a cursive, flowing style.

## NOTES TO FINANCIAL STATEMENTS

# CITY OF BATTLE CREEK, MICHIGAN

## POLICE AND FIRE RETIREMENT SYSTEM

### Notes to Financial Statements

#### 1. PLAN DESCRIPTION

*Plan administration.* The City of Battle Creek, Michigan Police and Fire Retirement System (the “System”) is a single-employer defined benefit contributory pension plan which provides retirement, disability and death benefits to, and contributes toward postemployment healthcare benefits for, plan members and their beneficiaries in accordance with the City of Battle Creek’s (the “City”) pension ordinance. The System covers all police and fire employees of the City of Battle Creek. Plan benefit provisions were established and may be amended under the authority of City Ordinances. Contribution requirements were established and may be amended subject to collective bargaining agreements and approval by the Retirement Board and City of Battle Creek City Commission. The financial statements of the System are included as a pension trust fund in the City’s financial statements.

The System is administered by the Board of Trustees of the City of Battle Creek, Michigan Police and Fire Retirement System. The five-member board is either elected or appointed in accordance with Public Act 345 of 1937 (“the Act”). Two members are appointed by the City Commission upon completing an application to serve. One member is an active member of the retirement system and elected by a majority vote of the active members of the police department. One member is an active member of the retirement system and elected by a majority vote of the active members of the fire department. The treasurer of the City is a member per the Act. All terms are four years.

*Plan membership.* System membership consisted of the following at June 30, 2018, the date of the latest actuarial valuation:

Retirees and beneficiaries currently receiving benefits	260
Terminated employees entitled to but not yet receiving benefits	8
Vested and non-vested active participants	181
<b>Total</b>	<b>449</b>

*Benefits provided.* The System provides retirement, disability, and death benefits. Retirement benefits for police and fire members are generally calculated as 3.00% of the member’s final three or five-year average salary (depending on the group) times the member’s years of service up to a maximum of 25 years, plus an additional 1.00% of final average compensation times the number of years of service in excess of 25 years. Retirement benefits cannot exceed 80% of final average compensation. Members with 25 years of service or who are age 60 are eligible to retire and receive benefits.

*Contributions.* Plan members are required to contribute between 8.25% and 11.72% of their annual covered salary to the System for pension benefits, depending on bargaining unit. The City contributes such additional amounts as necessary, based on actuarial determinations, to provide assets sufficient to pay for member benefits. The City’s pension contribution for the year ended June 30, 2019 represented 37.22% of the annual covered payroll.

**CITY OF BATTLE CREEK, MICHIGAN  
POLICE AND FIRE RETIREMENT SYSTEM**

**Notes to Financial Statements**

*Deferred Retirement Option Program (DROP).* In lieu of retiring and receiving a monthly benefit, an eligible participant may elect to participate in the DROP by making an irrevocable election to terminate employment with the City and retire upon ceasing participation in the DROP. The DROP election must specify the future retirement date which must be within the maximum time period permitted (typically 3 to 5 years, based on bargaining unit and hire date). Upon entry in the DROP, the participant ceases to accrue years of service in the defined benefit pension plan. The participant remains an employee of the City for all other purposes, but the retirement benefit payment is calculated and payments commence into a separate, restricted account. These monthly payments, along with interest earnings (credited quarterly at 2% annually), are not distributed to the participant until employment has terminated. DROP activity is summarized as follows as of June 30:

Year Ended June 30,	Beginning Balance	Credits	Interest	Distributions	Ending Balance
2019	\$ 286,525	\$ 326,722	\$ 8,624	\$ 109,877	\$ 511,994

**2. SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The System’s financial statements are prepared on the accrual basis of accounting. Member contributions are recognized in the period in which they are due. The City’s contributions are recognized when due and the employer has made a formal commitment to provide them. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

**Valuation of Investments and Income Recognition**

The System’s investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages, if any, are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments, if any, is based on independent appraisals. Investments that do not have established market values are reported at fair value as determined by the custodian, with the assistance of a valuation service.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make significant estimates and assumptions that could affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Administration**

Administrative costs are financed through the System’s investment earnings.

# CITY OF BATTLE CREEK, MICHIGAN

## POLICE AND FIRE RETIREMENT SYSTEM

### Notes to Financial Statements

#### 3. DEPOSITS, INVESTMENTS AND SECURITIES LENDING

##### Deposits

The System does not maintain any checking or other demand/time deposit accounts. Amounts reported as cash and cash equivalents in the statement of plan net position is composed entirely of short-term investments in money market accounts.

##### Investments

The Michigan Public Employees Retirement Systems' Investment Act, Public Act 314 of 1965, as amended, authorizes the System to invest in stocks, government and corporate securities, mortgages, real estate, and various other investment instruments, subject to certain limitations. The Retirement Board has the responsibility and authority to oversee the investment portfolio. Various professional investment managers are contracted to assist in managing the System's assets. All investment decisions are subject to Michigan law and the investment policy established by the Retirement Board.

*Investment Allocation Policy.* The System's policy in regard to the allocation of invested assets is established and may be amended by its Board of Trustees. Based on a long-term time horizon and the Board's risk tolerance, performance expectations and asset class (and subclass) preferences, the strategic asset allocation is 50/50 split between fixed income and equity investments with no more than 20% allowed in alternative assets classes such as hedges, private equity funds, real estate, commodities and structured notes.

*Investment Holdings.* The System's investments are held in a bank-administered trust fund. Following is a summary of the System's investments (at fair value as determined by quoted market price) as of June 30, 2019:

Fixed income:	
Corporate bonds	\$ 29,100,800
Foreign bonds	2,759,001
Municipal bonds	671,477
U.S. government securities	30,320,686
	<u>62,851,964</u>
Equity-indexed institutional funds	30,524,593
Domestic equities:	
Not on securities loan	25,408,501
On securities loan	5,638,558
Foreign equities	4,449,777
American depositary receipts	15,559,513
Real estate investment trusts	842,047
	<u>842,047</u>
Total investments	<u>\$ 145,274,953</u>

In addition to the above, the System has short-term investments of \$4,399,011 as of June 30, 2019 held entirely in money market accounts and reported as cash and cash equivalents.

CITY OF BATTLE CREEK, MICHIGAN  
POLICE AND FIRE RETIREMENT SYSTEM

Notes to Financial Statements

*Custodial Credit Risk.* For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The System's investment policy requires that investment securities be held in trust by a third-party institution in the System's name. As such, although uninsured and unregistered, the System's investments are not exposed to custodial credit risk since the securities are held by the counterparty's trust department in the System's name.

Short-term investments in money market accounts are not subject to custodial credit risk.

*Credit Risk.* The System's investment policy provides that its investments in fixed income securities be limited to those rated Ba2 or better by a nationally recognized statistical rating organization. The System's investments in all other securities (not fixed income) are not rated by Moody's. The System's investments in corporate bonds, foreign bonds, municipal bonds, and U.S. government securities were rated by Moody's as follows:

Aaa	\$ 14,738,441
Aa1	399,280
Aa2	778,193
Aa3	1,001,111
A1	1,290,970
A2	2,359,451
A3	2,611,374
Baa1 and below	9,624,452
Not rated	<u>30,048,692</u>
	<u>\$ 62,851,964</u>

*Concentration of Credit Risk.* The System's investments are not exposed to concentration of credit risk relative to a single issuer (i.e. company or government agency) inasmuch as no holdings equal or exceed 5% or more of total investments. The System's investment policy requires that the securities of any one company or government agency should not exceed 10% of the total fund and no more than 25% of the total fund should be invested in any one industry.

*Interest Rate Risk.* As of June 30, 2019, maturities of the System's debt securities (none of which were callable) were as follows:

	Fair Value	Investment Maturities (fair value by years)			
		Less Than 1	1-5	6-10	More Than 10
Corporate bonds	\$ 29,100,800	\$ 1,142,277	\$ 8,488,321	\$ 8,317,086	\$ 11,153,116
Foreign bonds	2,759,001	214,719	1,505,813	563,990	474,479
Municipal bonds	671,477	-	-	-	671,477
U.S. government securities	30,320,686	181,572	7,926,817	5,565,805	16,646,492
Total debt securities	<u>\$ 62,851,964</u>	<u>\$ 1,538,568</u>	<u>\$ 17,920,951</u>	<u>\$ 14,446,881</u>	<u>\$ 28,945,564</u>

# CITY OF BATTLE CREEK, MICHIGAN

## POLICE AND FIRE RETIREMENT SYSTEM

### Notes to Financial Statements

The System's investment policy does not place limits on the maximum maturity for any single fixed income security or the weighted average for the portfolio maturity or a particular segment thereof. At June 30, 2019, the actual weighted average maturity was 13.7 years.

*Foreign Currency Risk.* Foreign currency risk is the risk that significant fluctuations in exchange rates may adversely affect the fair value of an investment. The System has various investment holdings in foreign equities of \$4,449,777, foreign bonds of \$2,759,001 and American depositary receipts of \$15,559,513; these holdings are primarily in common and preferred stocks of Canadian (dollars) and European (euros) companies along with various other global companies. The System does not have any policies regarding foreign currency risk.

*Rate of return.* For the year ended June 30, 2019, the annual money-weighted rate of return on plan investments, net of investment expenses, was 6.81%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

*Securities Lending.* A contract approved by the System's Board permits the System to lend its securities to broker-dealers and banks (borrowers) for collateral that will be returned for the same securities in the future. The System's custodial bank manages the securities lending program and receives cash as collateral. The collateral securities cannot be pledged or sold by the System unless the borrower defaults. Collateral cash is initially pledged at 100% of the fair value of the securities lent, and may not fall below 100% during the term of the loan. There are no restrictions on the amount of securities that can be loaned. Securities on loan at year-end are classified in the preceding schedule of custodial credit risk according to the category for the collateral received on the securities lent.

At year-end, the System has no credit risk exposure to borrowers as the amounts the System owes the borrowers exceed the amounts the borrowers owe the System. The contract with the System's custodian requires it to indemnify the System if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay the System for income distributions by the securities' issuers while the securities are on loan.

Also at year-end, through a cash collateral investing program provided by the custodial bank, the System has an obligation to repay \$94,055 of cash collateral that was invested in a Sigma Finance Medium Term Note, which is impaired. Any current or future recoveries from Sigma Finance are not expected.

*Fair Value Measurements.* The System categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs - other than quoted prices - included within Level 1 that are observable for the asset or liability, either directly or indirectly. Finally, Level 3 inputs are unobservable and are based on estimates and assumptions. These levels are determined by the System's investment manager. These are determined at the fund level based on a review of the investment's class, structure, and what kind of securities are held in funds. The investment manager will request the information from the fund manager if necessary.

CITY OF BATTLE CREEK, MICHIGAN  
POLICE AND FIRE RETIREMENT SYSTEM

Notes to Financial Statements

The System had the following recurring fair value measurements as of June 30, 2019:

	Level 1	Level 2	Level 3	Total
Fixed income:				
Corporate bonds	\$ 512,168	\$ 28,588,632	\$ -	\$ 29,100,800
Foreign bonds	-	2,759,001	-	2,759,001
Municipal bonds	-	671,477	-	671,477
U.S. government securities	-	30,320,686	-	30,320,686
Equity-indexed institutional funds	30,524,593	-	-	30,524,593
Domestic equities	31,047,059	-	-	31,047,059
Foreign equities	4,449,777	-	-	4,449,777
American depositary receipts	15,559,513	-	-	15,559,513
Real estate trusts	842,047	-	-	842,047
	<u>\$ 82,935,157</u>	<u>\$ 62,339,796</u>	<u>\$ -</u>	<u>\$ 145,274,953</u>

4. RISK MANAGEMENT

The System is exposed to various risks of loss related to torts, errors and omissions. The System participates in the City of Battle Creek's risk management program for all of these exposures. The City's risk management program is primarily a self-insured program with reinsurance for amounts in excess of aggregate loss limits. The City estimates the liability for unpaid claims (including claims incurred but not reported) and allocates the cost to all appropriate entities and funds. There is no further exposure to the System that would require a liability to be recorded in the financial statements.

5. NET PENSION LIABILITY OF THE CITY

The components of the net pension liability of the City at June 30, 2019, are as follows:

Total pension liability	\$ 200,970,933
Plan fiduciary net position	(150,109,695)
City's net pension liability	<u>\$ 50,861,238</u>

Plan fiduciary net position as a percentage of the total pension liability	74.69%
--	--------

*Actuarial assumptions.* The total pension liability was determined by an actuarial valuation as of June 30, 2018 (and rolled forward to June 30, 2019), using the following actuarial assumptions, applied to all periods included in the measurement:

Wage inflation	4.00%
Salary increases	4.50 to 16.00%, including inflation
Investment rate of return	6.50%
Retirement age	Age and service-based tables of rates that are specific to the type of eligibility condition. Last updated for the 2009 valuation.

RP-2014 Standard Mortality Tables projected to 2019 using the MP-2014 mortality improvement scale.

CITY OF BATTLE CREEK, MICHIGAN  
POLICE AND FIRE RETIREMENT SYSTEM

Notes to Financial Statements

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2014. From time to time one or more of the assumptions is modified to reflect experience trends (but not random or temporary year-to-year fluctuations).

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2019 (see the discussion of the System's investment allocation policy) are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return	Expected Money-Weighted Rate of Return
U.S. agencies	42.00%	1.50%	0.63%
Domestic corporate securities	32.00%	4.75%	1.52%
Domestic equities	9.00%	5.00%	0.45%
American depository receipts	3.00%	0.00%	0.00%
International equities	<u>14.00%</u>	5.00%	0.70%
	<u>100.00%</u>		
Inflation			2.25%
Administrative expenses netted above			<u>0.95%</u>
Investment rate of return			<u>6.50%</u>

*Discount rate.* A single discount rate of 6.50% was used to measure the total pension liability. This single discount rate was based on an expected rate of return on the plan investments of 6.50%. The projection of cash flows used to determine the single discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**CITY OF BATTLE CREEK, MICHIGAN  
POLICE AND FIRE RETIREMENT SYSTEM**

**Notes to Financial Statements**

*Sensitivity of the net pension liability to changes in the discount rate.* The following presents the net pension liability of the City, calculated using the discount rate of 6.50%, as well as what the City’s net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50%) or 1-percentage-point higher (7.50%) than the current rate:

	1% Decrease (5.50%)	Current Discount (6.50%)	1% Increase (7.50%)
City's net pension liability	\$ 75,591,227	\$ 50,861,238	\$ 30,325,643

Net pension liability as a percentage of covered payroll	341.42%	322.38%	271.09%

Notes:

GASB 67 was implemented in fiscal year 2014. This schedule is being built prospectively. Ultimately, 10 years of data will be presented.

Assumption Changes 2015: Changes include a decrease in wage inflation, decrease in projected salary increases, and the mortality tables were updated to RP-2014.

Assumption Changes 2016: Changes include an increase in wage inflation, increase in projected salary increases, and decrease in the investment rate of return.

Assumption Changes 2018: Changes include a decrease in the wage inflation, decrease in salary increases and decrease in the investment rate of return.

**Notes to Schedule of Contributions**

Valuation date June 30, 2018

Notes Actuarially determined contribution amounts are calculated as of June 30 of each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

**Methods and assumptions used to determine contribution rates:**

Actuarial cost method	Entry-age normal
Amortization method	Level percentage-of-payroll
Remaining amortization period	Closed 30 years for benefit improvements and assumption changes
	Closed 26 years for all other liabilities
Asset valuation method	5-year smoothed market, with 20% corridor
Inflation	4.00%
Salary increases	4.50%-16.00%, including inflation
Investment rate of return	6.50%
Retirement age	Age and service-based tables of rates that are specific to the type of eligibility condition. Last updated for the 2009 valuation.
Mortality rates	RP-2014 Standard Mortality Tables projected to 2019 using the MP-2014 mortality improvement scale.
