

What do you think about the Battle Creek Police? We want to hear your experiences!

The City of Battle Creek is working with consulting firm MGT to conduct an **Equity Audit**. The Equity Audit will assess ways the city can make sure its workforce is more representative of the community, and to evaluate the **current state of relations between the Battle Creek Police Department and the community**. We need your feedback and suggestions on how the City's strategies and policies help or limit the police department's engagement with you, the neighbors in the community.

We invite you to participate in this meaningful discussion. Please take advantage of this opportunity to share your perspective, feedback, and recommendations on what the city and the Battle Creek Police Department can do to ensure equity and inclusion for all Battle Creek neighbors.
